

Source: NWC. National Water Company, KSA continues to raise the bar on water supply.

World Bridge Industrial is now working on the completion of 90m Water Tank with a great achievement.

1 Tank of Aluminum Dome Roof

- Installation & Operating : 4Q, 2020 - Tank Dia (90m x 1)

NWC is focusing on improving the quality of services provided in the city's Central Area, the parallel second ring road (Ayyad, Sheb Amer, Jabal Jeheishah, Alquaslah, Alsulaymaniyah and Almasfalsh), and umrah areas (Alaziziyah, Albank Plan, Alsheshah and Alrawdah) that are usually crowded with visitors.

To provide exceptional water and wastewater services in a reliable, sustainable and cost-effective manner, focusing on the satisfaction of our customers, employees

and communities, to deliver strong performance through a commercially viable organization.

The NWC was established to provide water and wastewater treatment services in accordance with the latest international standards.

The plan included the preparation and equipping of operation and maintenance centres to look after water networks and environment services networks, this is also adopted a water sterilisation and rotation system to ensure high quality water.
